Lutherans to Meet at Milwaukee---It Is Triennial Convention, June 16--25

A Million Members to Be Represented by Delegates from All States and Foreign Countries.

More than a thousand delegates, representing 1150,000 members of the Evangelical Lutheran Synod of Missouri, Ohio, and other States, will assemble at Concordia College, Milwaukee, Wisconsin, for the Triennial Convention from June 16 to 25. Reports of activities during the past 3 years will be rendered and action taken on a large number of recommendations from Conferences, officials and individual congregations.

Elected delegates, pastors and members throughout the country are particularly interested in the report of the Survey Committee elected at the last convention to make recommendations as to the higher educational system of Synod, comprising 20 colleges and seminaries. The proposals of this committee, published a year ago, has aroused much interest and discussion.

During the days preceding the convention the presidents of 29 districts of Synod, with representatives of the theological seminaries at St. Louis, Mo., and Springfield, Ill. and Seward, Neb., assembled to assign 180 candidates

for the Ministry and over 100 prospective teachers in parochial schools a field of labor. This was the first time Dr. L. Fuerbringer of Concordia Seminary, St. Louis, presided at this, the largest institution of its kind in America.

As is to be expected, opinions will differ as to the appropriations to be voted, the various endeavors of Synod, as to the future policies in the many activities of this large body, and as to the solution of the problems confronting the delegates, but the convention will be spared any difference of opinion as to doctrinal matters.

The most important mission reports will be rendered by the boards of home missions & church extension, whose sphere extends from Alaska to Mexico, and includes work among Germans, Persians, Lithuanians, Polish, Lithuanians, Italians, Spaniards and Mexicans, the American Indian, as well as among the deaf-mutes at 134 places and the blind. Foreign fields are in France, Germany, Finland, Estonia, Brazil, Argentina, Chile, India. Work among negroes of the South and larger northern and western cities

New C.N.R. Timetable.

Important changes in C.N. timetables went into effect on Sunday last.

The chief change is that of the Continental Limited, which will revert to its former schedule. This crack train will leave Stony, going west, at 24.16, midnight, instead of 11.44, as formerly.

Eastbound trains will arrive from the Coast at 6.18, instead of 3.44.

A further change has been made, by having the Continental carry a sleeper to Edmonton for the Mountain Park line, leaving Edmonton Sundays and Thursdays.

Tax Sale.

The secretary of the town of Stony Plain has a public sale of land under the Tax Recovery act gazetted, to take place on July 6th. There will be some 20 odd lots offered, spread over eight town blocks. These will be offered at two o'clock, unless redemption has been arranged for. As at the former sale, the secretary will act as auctioneer and clerk.

J. J. Maloney.

Mr. J. J. Maloney must have been surprised at the reception he received in Stony on his lecture visit here last week, Kelly's Hall being filled to the doors at the advertised time.

The proceedings opened with a song by the audience, led by a choir-leader, the latter also singing two solos; followed by an invocation from a Scotch clergyman. The latter then gave a short address based on a text from the Bible. The address was listened to intently by those present.

Following this, Mr. Maloney gave his well known address on his advertised subject.

About 11 o'clock that evening a burning-glass was noticed on Main street, near the Gillespie elevator.

It has been a long time since the town of Stony Plain seen such a large number of people on its streets as there were that evening.

Duffield Doings.

Duffield's Big Day, this year, will be Saturday, June 25, when the citizens of town and district hold their annual picnic. The posters are out for this affair, which is looked forward to by those interested in sport from far and near.

One of the principal events will be the competition for the Faulks Cup by the pupils of the schools of the district. There will be a baseball tournament, horse races and numerous other sporting events.

An added attraction will be the contest for the prize given to the couple with the largest family present.

The day's program will conclude with a dance in the evening, with Barth's orchestra.

For 40 years SALADA has given the finest quality in tea. Present prices are the lowest in 15 years.

Nationalism, Good And Bad

If nationalism is destroyed, mankind will be reduced to a helplessly dead level, declared Dr. A. N. Whitehead, of Harvard, representing the British Academy at the Royal Society of Canada meeting in Ottawa. Dr. H. M. Tory, president of the National Research Council of Canada, and former president of the University of Alberta, supplemented this declaration by saying: "No nation has qualified to take its place in the international arena until it has firmly established itself on national grounds. Canada has men of capacity to do this. It is up to us to provide them with the opportunity."

They are quite right, comments the Border Cities Star. If they are speaking of nationalism in the sense of a strong but sensible national pride, which impels scientists and statesmen to achieve greater things than their colleagues in other countries, so that mankind as a whole may benefit, and glory redound to the nation which originates the discoveries or the measures of progress. And it is to such a type of nationalism that one may readily believe men like Dr. Whitehead and Dr. Tory refer.

But there is another sort of nationalism. It is ruining nations; it is stifling mankind. It has brought about the present depression. It is causing unemployment, ruin and suffering. It is heading this war-scarred old world inevitably toward a grimmer conflict than any in history; a conflict which, unless it is avoided, may witness the destruction of civilization as we know it.

It is that kind of nationalism which is based in a false conception of racial superiority, where one people look down upon other peoples, where racial color lines are drawn, where differences in language and religion are emphasized to the supposed advantage of one group of people over other groups. Nationalism founded in false pride and pretensions, based upon purely selfish considerations and an utter disregard of all other peoples and nations, nationalism which would seek glory and aggrandizement for itself at the expense of all others, does not qualify any nation for a place in the international arena, does not lift a nation above other nations, does not raise mankind to a higher level, but reduces all to a lower level and takes the glory that should be in life out of it.

When, following the Great War, the League of Nations was brought into being, it had for its object the uplifting of all nations, the development in action of a brotherhood of mankind. In keeping with that aspiration the Peace Treaty made provision for the self-determination of races and nations. It provided for a larger liberty for oppressed minorities, and for the world as a whole. But, unfortunately, these newly created smaller nations, as well as many of the older nations, became imbued with the idea that they must first and foremost establish and develop a strong national spirit and consciousness, and this found expression in that narrow form of nationalism to which reference has been made.

This narrow nationalism fostered suspicions of other nations, was built and thrived upon fear of others. It impelled nations, not to remove existing barriers to international intercourse, but to erect new and even more insurmountable barriers. It resulted in a mad race of still greater armaments, the spending of untold billions in preparation for future wars. It led governments the world over to spend and spend madly without due regard to the national income or even of the economic and financial capacities of all nations combined.

Thus narrow nationalism developed at the outset at such a rate and to such an extent that it largely smothered the League of Nations ideal of a true internationalism founded upon a sane nationalism which only desired such glory and power for itself as grew out of the fact that it was making a larger and finer contribution to mankind at large than other nations were making.

Until this narrow nationalistic spirit is destroyed there can be no permanent peace, progress and prosperity in the world. In its destruction lies the only hope for mankind.

Bird-Eye Maple In Demand

Used Extensively On Account Of Strength and Wearing Qualities

All kinds of furniture are manufactured from Canada's sugar maple, from solid to veneer while the figured veneer of bird's-eye maple is particularly in demand, according to the forest service, Department of the Interior. The strength and wearing qualities of the wood assure it a place in the vehicle industry, where it is used for heavy axles, frames, sleigh runners, factory trucks, bicycle wheel rims, etc. Because of its toughness it is made into baseball bats, hockey sticks, billiard cues, paddles, croquet balls, mallets, etc.

The sugar maple is a leading wood for flooring, and its strength and stiffness suits it for the great variety of tool handles that are made from it.

Chivalry On the Road

Something More Than "Reasonable Care" Required From Drivers

Legislation works no charm on the roads or elsewhere. It can only create the conditions in which safety can thrive. Ultimately we must protect ourselves. But when that is said, we can only return to an appeal frequently made in this column. As drivers of machines of lethal possibilities, motorists should not be content in the crowded conditions of today with the little called "reasonable care." Pedestrians are not all so young as they were. The Highway Code has not cured the short-sighted or the hard of hearing. It has not given good legs to the lame. There is a child at every crossing. Nothing short of chivalry is demanded, and from our modern characters it is not too much to ask.—Daily Herald, Glasgow.

All Her Children Were Troubled With Diarrhoea

Ms. J. J. Bickert, R.R. 1, Enderby, B.C., writes:—"Last Summer all my children were troubled with diarrhoea, and were so bad I did not know what to do. A friend told me to give them Dr. Fowler's Extract of Wild Strawberry, so I got a bottle, and after a couple of doses you should have seen the change. The children were soon well again, and I am very thankful to your wonderful remedy. I find it the only one that relieves so easily and quickly."

A Grand Old Scot

Late "Sandy" McIntosh Of Aberdeenshire Was Great Athlete

The late Alexander McIntosh, of Crathie, Aberdeenshire, may not be written into the annals of Scotland, but he was a grand old Scot just the same.

"Sandy" McIntosh has just died at the age of 81. For sixty-five years he was an annual competitor in the field of sports at the Braemar gathering, near Balmoral Castle. A son of the glens, he was a man of superb physique, standing over six feet in height. Grey-bearded and possessed of a massive frame, the veteran Highlander headed the Farquharson clan in the annual parades bearing the standard, and his appearance in the arena invariably aroused the admiration of the gatherings round the ring.

The Braemar gathering was the event of the year for "Sandy," awakening as it did memories of the "sixties" of last century when first he took his place among the competitors in the ring. At 21 he was beginning to make a name for himself as a heavy-weight athlete, winning several of the principal awards at Braemar.

At 72, fifty-one years later, he took third place in the caber tossing competition, although his opponents this time included some of the best-known heavyweights in Scotland.

A caber is a shapen piece of a tree about twenty feet long and weighing enough to be a strenuous lift off the ground for the average man. The tosser has to hold it up to the palms of his hands, take a short run and then heave the pole so that it will turn over its own length in the air before falling. "Sandy" McIntosh thought that was sport at the age of 72.

Most of the young men of today would be baffled to lift the thing off the ground at all.

Mysterious Cities Of Southern Arabia

German Explorer Found Skyscrapers Built Entirely Of Clay

Stories of skyscrapers in the remote wastes of Southern Arabia are told by Herr Hans Helfritz, a young German explorer. He claims to have visited places which no other white man has ever seen. He found cities there which are not shown on any map. Tribes of Hamitic, Indian, and Mongolian origin populated them, and the civilization he describes as being "a remnant of the Middle Ages." Yet in all these mysterious cities he found buildings ten storeys high, built of clay, without even a framework of wood. "I had many rather disagreeable encounters with some of the wild tribes of the desert," Herr Helfritz declares, "but I have brought home a splendid collection of photographs and gramophone records."

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing almost every specific ailment, cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Realizes His Ambition

Swiss Watchmaker Has Brought To Perfection An Electric Watch

A retired watchmaker of Geneva, Switzerland, has just fulfilled his twelve-year ambition to perfect an electric watch. Driven by a s-p-motor, it needs no connection with outside wires. The case itself contains a storage battery no larger than the winding mechanism of most timepieces, which is declared to hold its charge for a year, and which may be recharged when necessary. Electricity actually operates the watch and does not merely wind a spring, as is the case in self-winding clocks.

Barber's Itch and Ringworms are relieved by the use of Douglas' Egyptian Liniment; quick, certain results. Relieves the most obstinate cases.

Northern Wireless Station

There is a Dominion Government wireless station at the east end of Great Bear Lake in the North West Territories of Canada. Its location is shown on the recently issued map sheet published by the Topographical Survey, Department of the Interior, Ottawa.

Here's Health!

Christie's Graham Wafers, with milk, make a light and nourishing hot weather meal. In a new package... (containing a delicious recipe)... crisper and fresher than ever.

Christie's Graham Wafers

British Scientists Go North

Will Endeavor To Probe the Mystery Of the Northern Lights

Equipped to send up sounding balloons to an altitude of 10 miles to test weather conditions and also to probe the mystery of northern lights, members of the British Polar Expedition are on their way to their base at Fort Rae, on Great Slave Lake.

The band of scientists is headed by Dr. J. M. Stagg, of the British Meteorological office.

Plans provide for the party remaining at Fort Rae until September, 1933, for the purpose of studying weather conditions in the far north.

The work is part of an international arrangement which is also being participated in by Canada, United States, Denmark, Russia and a number of other countries.

To carry on its investigations in the north, the British party brought six tons of instruments from the Old Country. It also has brought here 10 tons of foodstuffs donated by British and Canadian manufacturers.

Canadian Film

First Canadian Drama-Talkie Is Produced In Toronto

First Canadian drama-talkie, "The Bella," has been produced in Toronto by George Thorne Booth, with Dickson-Konwin, Canadian actor, in the title role. The two-reel film was based on a script used long ago by Sir Henry Irving.

To produce this all-Canadian product many difficulties had to be overcome. It was made in the main gallery of the Fine Arts Building and the cast were all Torontonians. Lack of sound-proof equipment made remote orchestral control very difficult and even sleigh bells had to be faked with an ash tray and a tumbler because real bells refused to register as bells at all.

The movie-tune has been shown privately.

The use of Miller's Worm Powders insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle with the germ to weakness. This preparation gives promise of health and keeps it.

Has Long Extension

London Firemen Communicate By Phone On Rescue Ladder

So tall is a rescue ladder recently put into service by firemen of London, England, that a telephone is used to maintain communication between those at the top and bottom. Fully extended, it is 104 feet, and is said to reach twenty feet higher than the types now in use. The men at the base may follow the progress of the rescue work by phone.

"The poets perform a great mission in this world."

"If it wasn't for them the magazine editors would have an awful time filling in small spaces at the bottom of pages."

Sun Spots and Rain

Plenty Of Moisture For Western Grain Fields Is Predicted

Western Canada may expect fairly generous rains for some time to come if sun-spot data collected by the Dominion Observatory runs true to form. According to observatory officials, Canada is now approaching a "sun-spot period," which should produce plenty of moisture for the western grain fields.

The effect of sun-spots, it was explained, is to increase the rainfall over a long period.

A sun-spot period lasts for 11 to 11½ years. This does not mean that tremendous quantities of rain will fall for a short period, but rather that over a long period the precipitation will be higher than when the sun-spots are not in evidence.

Heavy rains in different parts of the world at present were hardly attributed to sun-spots.

To begin with, in the absence of accurate world data, scientists were unwilling to agree that the rainfall over the world has been exceptionally heavy.

While precipitation has been great in certain countries, it was not so in others.

Certain parts of Canada, for instance, had been exceptionally dry during May, while others had experienced generous rains.

Officials made it clear that a few weeks' heavy rain cannot be explained by sun-spots. Their effect is over a much longer period.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Phones For Herdsmen

The tents of the nomadic Lapps who take their reindeer herds to graze in Sweden will in future be fitted with telephones. The Lapps may then "phone" each other regarding grazing conditions and the state of the herds generally.

New Emergency Ration

The new emergency or "iron" ration to be issued to the troops is just a hard-cake weighing only 6 ozs. It consists of cocoa, sugar, pea powder, beef powder, oil of lemon and cocoa butter. It is supposed to sustain a man for twenty-four hours.

Standard Time And Time Zones Established Throughout Canada From Atlantic To Pacific Coast

The faster means of transportation and communication made possible in recent years by the aeroplane, the motor car, the radio, and wireless telegraphy, together with the greater interest thus developed in affairs in distant places, have made necessary a much more developed knowledge of corresponding times and related matters. Many questions relating to standard time are referred to the Dominion Observatory of the Department of the Interior. In order to meet this popular demand for time information the Department has had prepared and printed a small pamphlet entitled "Standard Time and Time Zones in Canada."

Everyone knows the meaning of the expression "standard time" but few in the present generation are aware that the adoption of standard time zones was due to the efforts of that eminent Canadian, Sir Sanford Fleming. From 1878 he had been advocating the use, throughout the world, of standard time zones. At a world conference held at Washington in 1884 his suggestions were adopted and it was agreed to urge all countries to use standard time zones. Almost all large countries have adopted standard time zones. At a world conference held at Washington in 1884 his suggestions were adopted and it was agreed to urge all countries to use standard time zones. Almost all large countries have adopted standard time zones. At a world conference held at Washington in 1884 his suggestions were adopted and it was agreed to urge all countries to use standard time zones. Almost all large countries have adopted standard time zones.

Since Canada extends east and west almost one-quarter of a complete circuit of the globe, and morning at the Atlantic may be still midnight at the Pacific, there are six different standard times. Six o'clock a.m. in Halifax is five a.m. in Ottawa, four a.m. in Winnipeg, three a.m. in Calgary, two a.m. in Vancouver, and one a.m. in Dawson, while any locality is using daylight saving time it is simply adopting the standard time of the zone to the east of it.

With the exception of Quebec, Ontario, and the Northwest Territories, each province has adopted a single standard time. Atlantic standard time, which is the local time at the 60th meridian (running near Sydney, Cape Breton), is four hours less than Greenwich and is used throughout Nova Scotia, Prince Edward Island, New Brunswick, and those parts of Quebec and the Northwest Territories east of the 68th meridian. Eastern standard time, which is the local time at the 75th meridian (running near Cornwall, Ontario), is five hours less than Greenwich and is used in Quebec west of the 68th meridian, in Ontario east of the 80th meridian, and in the Northwest Territories between the 68th and 85th meridians. Central standard time, which is the local time at the 90th meridian, is six hours less than Greenwich and is used in Ontario west of the 90th meridian, in Manitoba, in the Northwest Territories between the 85th and 102nd meridians, and in the southeasterly part of Saskatchewan. Mountain standard time, which is the local time at the 105th meridian (running near Regina, Saskatchewan), is seven hours less than Greenwich and is used throughout Saskatchewan, excepting the southeasterly part, throughout Alberta, and in that part of the Territories between the 102nd and the 120th meridians. Pacific standard time, which is the local time at the 120th meridian (running near Kamloops, British Columbia), is eight hours less than Greenwich and is used throughout British Columbia and in that part of the Northwest Territories lying west of the 120th meridian. Yukon standard time, which is the time at the 135th meridian (running near Whitehorse, Yukon Territory), is nine hours less than Greenwich and is used throughout Yukon Territory.

Enforce Safety Measures

Motion Picture Theatres In Canada Rank High In Respect To Fire Control

Motion picture theatres in Canada now rank the highest of any class of property in respect to fire control, according to the report of J. Grove Smith, Dominion Fire Commissioner, submitted to the annual conference of Canadian fire marshals which opened in Ottawa.

During the past year, the loss from film fires in Canadian theatres has been less than \$4,000, and constitutes a record for any country in the world, Mr. Smith stated. The 820 motion picture theatres in the Dominion, the report shows, handle \$48,000 miles of highly inflammable film annually.

The excellent showing is attributed to the efficient inspection by provincial authorities; carelessness of licensed operators; and to Col. John A. Cooper, president of the Motion Picture Exhibitors Association, who is an enthusiastic advocate of theatre safety requirements.

THERE'S LOTS OF STYLE AND CHIC ABOUT THIS SIMPLE DRESS

It's a lovely model that you can fashion of tub silk, cotton novelty of woollen aspect, of linen or of pique. It also can be made with sleeves for town—it's just as you feel about it! A printed crepe silk is splendid choice, if made with sleeves.

Note the attractive skirt fullness. And don't you think the buttoned shoulder idea is smart?

Style No. 428 is designed for sizes 14, 16, 18, 20 years, 36 and 38 inches bust. Size 16 requires 3 1/2 yards of 38-inch material.

The original in marine blue crepe silk, used navy blue button trim. The belt also fastened with a navy blue buckle.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Lionel Hitchman, of the Boston Bruins, is still a top-hand defence man. He has just proved it at Hart's Island Pool on the St. John River near Fredericton, N.B. The 30-lb. silver salmon, the game of fighting fish, that Hitchman is proudly holding, failed to get past him. Sportsmen are finding fishing better than ever this year, according to A. O. Seymour, general tourist agent Canadian Pacific Railway.

Every Farmer Should Have Account Book

To Keep Record Of Yearly Receipts and Expenses

Farming is a business, and if it doesn't pay the farmer wants to know why it doesn't pay. Some record of receipts and expenses, together with an inventory (a list with values of livestock, feed, implements, etc., on hand), taken at the beginning and at the end of the farmer's year, must be kept if he is to find out why or where it doesn't pay. A record of each department of the farm business should be kept. This is the only way to find out how much is being made each year or which departments are not paying. To assist the farmer in this matter the Dominion experiment farms have issued a very simple and useful little account book. This little book, while simple, is a great step in advance of keeping no accounts whatever. It may be procured from the Publications Branch, Department of Agriculture, Ottawa, for the sum of ten cents.

Cook Islands, in the South Pacific, have issued new pictorial stamps.

Victoria Observatory Reports Discovery Of New Star Many Times Larger Than The Sun

When Books Were Bricks

Writing Done On Clay In Old Babylonian Days

Nearly every city, town and village in Canada has its public library, which gives great joy to many people, but it is strange to note that in the days before paper was made, there were public libraries in every town in Babylonia. In one there were 32,000 volumes arranged on shelves but each book was a brick, for writing then was done by indenting letters on clay and baking the clay in an oven. One authority tells us that it is likely that ancient Babylonia had more books than our country had a few generations ago.

In those days it was a great honor to be a librarian, and sometimes this honor was sought by the king's son himself, who was proud to be in charge of these precious brick stories and histories.

In one brick discovered in our time is the beginning of a story about a small walf who was rescued by the king from "dogs and ravens," and was handed to a priest. The priest branded his feet with his seal, and the walf was then given to a nurse, the king promising to provide food and clothing for him for three years. The story ends abruptly, for the brick was broken!

Children went to school then as now, though the blackboard was a huge baked clay tablet, on which maxims and other things had been traced in strange wedged-shaped letters.

Birds Menace To 'Planes

Collisions Which Prove Highly Dangerous Have Been Reported

Now that aeroplanes have become the fastest of man's conveyances, birds have become a menace. Two recent "freak" accidents have been reported as the result of collisions in the air with hawks, crows, buzzards or kites. One of these was caused at an altitude of only thirty feet when a kite struck the 'plane, tearing off a propeller blade and turning the 'plane over in a field. Another, and even more thrilling, encounter was reported by a British army officer in India. He was flying at about fifteen hundred feet, when a sudden vibration through the 'plane decided him to make a rapid but careful landing. The leading edge of one of the lower 'planes had been crushed by a blow, and mechanics found a kite-hawk that had fallen near by with every bone broken.

We need not fear any crowding in the realms of space, because if all the stars could be counted the reckoning put over against the spatial area would be as if we thought of about a dozen fish being the inhabitants of the Atlantic Ocean. One modern expert tells us that the stellar census would resemble about seven summer midges having the whole atmosphere of Europe for their ballistics. But this is only the beginning of miracles. Announcement is made from the astro-physical observatory at Victoria, B.C., that a faint star situated in the constellation of Cassiopeia has recently been glimpsed, which is made up of two lobes like a cuff-link or "two suns," these being 150,000,000 miles from each other, and from our earth a distinct of 3,100 light-years, which means that if the flash, say, of a luller match could travel to this new star from earth, going at the rate of 186,000 miles per second, it would take three thousand years and more for the signal to reach the double star, which has been named H.D. 698.

Furthermore, if we reckon by weight and take our own sun as the unit, then the two globule component parts of this new star are, respectively, 134 and 50 times the weight of the sun, whose light visits our little earth every day. Put the numeral "2" and add twenty-seven ciphers and you have the computed weight of the sun. Now try to think of a new planet with a temperature of 25,000 degrees Fahrenheit and a luminosity 1,400 times brighter than the sun, and if we take in this reckoning, some notion may be formed of this stellar "neighbor" just discovered and said to be 20,000,000,000,000,000 miles or more from the earth on each week. Maybe we ought to feel thankful that this monster is no nearer and keeps a respectful distance from our own mundane hut. Yet at that we are informed that the spectrum lines whereof it leaves the imprint indicate that it is to be listed amongst the cooler stars and, in point of fact, has the distinction of being the coolest star in which calcium lines have been detected.

These calculations are relative, we are assured. We hope so. Confronted by them, all our ideas about the physical universe drop like slipping a peppercorn into the St. Lawrence. Chesterton somewhere says that when the author of the Book of Job wrote "Thou hast hanged the world upon nothing," he wrote the substance of the whole appalling poetry of modern astronomy. And, perchance, this is true. Long ago a misanthropic shepherd exclaimed: "When I consider Thy heavens, the moon and the stars which Thou hast ordained, what is man that Thou art mindful of him?" Who amongst us has not some time asked the self-same question? The supreme marvel of it all is that the human insect gazing upon immensities unknown should be able to make such calculations and take in the vast arc of the spangled heavens by a glance of the eye, that is, by means of a lens about the size of an ordinary split pea. But we have much to learn. That is abundantly evident.—Montreal Gazette.

A delegation of Jewish and Arab orange growers will leave Palestine shortly to attend the Ottawa Imperial Conference.

"I got two mauls at the registry office today and engaged both." "But we only keep one maul." "Yes, one comes on the first and the other one the fifteenth."—Hunsdel, Hamburg.

A Miss That Never Misses

Those who consider that the vaunted performance of William Tell was something to write home about should see Wah-Nelaha, Red-Rock, full-blooded Algonquin Indian, from Hudson Bay. The 23-year-old Indian maid is shown as she demonstrated her skill with bow and arrow, using a human target, at New York. The visitor astounded archery experts with her unerring accuracy with the ancient weapon.

Dancing on skis—Sondagmiss-Stirk, Stockholm.

For Better Results in Cooking

THOUSANDS of experienced housewives, from Halifax to Vancouver, use **Charles Milk** exclusively. The improved flavor of their cooking and the economy makes **St. Charles Milk** doubly appreciated.

Be sure you ask for **St. Charles Milk**. No other reported milk will give you a wonderful rich, creamy flavor.

The college of Puget Sound, state college of Washington, conferred an honorary degree of Doctor of Laws on Premier S. F. Tomin, of British Columbia.

France officially recognized the feat of Amelia Earhart Putnam at a reception, where she was presented with a gold medal commemorating her flight from Harbor Grace to Ireland.

Five flying boats from Detroit, Michigan, are somewhere in northern British Columbia gold fields where their crews will take part in a prospecting survey.

Mrs. C. R. Crowe, Guelph, Ont., was re-elected president of the Dominion Board, Women's Missionary Society of the United Church at sessions of the society in Toronto. Heads of departments were appointed to supervise work of the society in home and mission fields.

Empire Shopping Week

Proposal Is Made To Set Aside Week For This Purpose This Fall

An "Empire Shopping Week" for Canada will be arranged during the autumn, probably while the economic conference is underway in Ottawa, if the hopes of the Canadian Manufacturers' Association are realized. This was intimated in the report of the commercial intelligence committee presented at the 61st annual general meeting of the association at Ottawa. Empire shopping weeks were held in 1928 and 1929 and its revival has been urged upon the minister of trade and commerce.

Cars Replace Camels

The conquering of the desert by automobile has had a disastrous effect on the camel market. In the annual camel sale at Marrekreh, good animals were sold at from \$50 to 1,000 francs. Automobiles now carry the freight loads that were once trekked across the desert by camels.

PERSONAL

SCOTTISH LADY AT PRESENT IN Canada, would like to take in charge one or more young ladies. Has experience in travel abroad, and with Canadian girls. Could act as companion to lady, in any part of Canada, or as travel companion. Has excellent testimonials both in Canada and in Britain. Would willingly give more information to interested party. Apply Box 50, Winnipeg Newspaper Union, 175 McDermott Ave., East, Winnipeg, Man.

Contract Bridge

By Hamlin B. Hatch, Olympic Champion, Canadian Club, a reporter.

In my last article the salient features of the Approach-Forcing System were given. Today I will review the Official System. This system was devised by the united efforts of several bridge experts to remedy what they considered were defects in the Approach-Forcing System. Added to this was the idea that the conventional part of the game could be made easier for the average player.

The Official System differs from the Approach-Forcing System only slightly. The chief differences are noted below.

1st. The Opening Bid of One.

In the Official System the opening bid of one is made on a hand containing from two to three and one-half quick tricks, and guarantees that in the declared suit the bidding hand will take from four to five tricks. This is practically the same as the minimum opening bid of one in the Approach-Forcing System.

2nd. The Opening Bid of Two.

The opening bid of two is made on a hand containing from three and one-half to six honor tricks and guarantees that in the declared suit the hand will take at least six tricks. The bid is called the intermediate bid and this declaration constitutes the chief difference between the Approach-Forcing and Official Systems. This bid does not demand a response.

If partner's hand contains one honor trick or strong distributional values. It is true that on certain types of hands this bid gives good results but opponents of this bid maintain that it gives too much information to the opposing side and therefore tends to nullify the chance of making penalty doubles. It is generally believed by experts that its disadvantages outweigh its advantages. On the other hand it gives precision of information to one's partner and amongst average players this precision of information is a very valuable asset. But if it is conceded that the present day game of contract is a battle of wits, with the main battle being fought before the cards go on the table, then it is logical to think that the use of any bidding method which gives too much information to the opposing side is bad strategy if not bad contract. Personally I am of the opinion that applied to certain types of hands, the bid is valuable but I do not think this certain type of hand comes often enough to warrant the inclusion of this bid in any system. For on the average it may be said that in the Official System over eighty per cent. of the opening bids are bids of one.

The opening bid of three in the Official System is similar in its application to the opening bid of two in the Approach-Forcing System. It is a demand bid and guarantees game for the particular deal in which it is made.

Except then for the variations in the opening bid convention, the Official and the Approach-Forcing Systems are practically identical. The Jump-Shift bids are forcing in both systems and methods of overcalling used are alike. The weak no trump response by partner to an opening bid of one is identical in both systems. The no trump opening bid is used more frequently in the Official System than in the Approach-Forcing simply because the bids made on four card suits in the Official System must have a stronger honor trick four card suit than is required by the Approach-Forcing.

However, both systems are easy to play and it is not a hard matter for any player to familiarize himself thoroughly with the salient differences between them, so that he can play whichever system his partner desires him to play.

In the next article The One Over One and the Vanderbilt Club will be discussed.

Yukon Is Land Of Flowers

Yukon Territory, Canada, is a land of flowers. Hundreds of types of flowers, plants and shrubs grow wild on every hill and valley. Nature responds generously to the flowers cultivated and one of the lasting impressions left with the visitor is the variety and beauty of the flowers which decorate the homes and beauty the grounds of Dawson, the capital.

Astronomer's fine modern telescopes show that about six stars in every hundred are double.

LOST 20 LBS. FAT Without Altering Diet

To reduce weight without any attention to diet is rather more than anyone should expect. That the Kruschen method should have succeeded in this case, is a great tribute to its effectiveness.

"When I started taking Kruschen for reducing weight, I weighed 170 lbs. That was seven months ago. I decided I was too heavy, and now, thanks to the half teaspoonful of Kruschen every morning, I tip the scale at 150 lbs. I have been that weight for nearly four months. I may say I feel much better. I did not diet myself in any way whatever."—E. C.

Kruschen Salts do not reduce you overnight—like so many products claim to do. But taken regularly over a period of time—with a modified diet and gentle exercise, half a teaspoonful in a glass of hot water every morning before breakfast will take away unhealthy flesh and restore your figure to its normal weight. Yet at the same time—build up health with a great increase in vigor and energy for you!

JUST THE MEREST HINT OF FEMININITY MARKS THESE DELICIOUSLY YOUNG PAJAMAS

It's a darling. The bodice is given a unique effect. A wide sash caught in at either side and tied at the back, draws it snugly to the figure. The short puffed sleeves are cute idea. However, if you wish to omit the sleeves then the pretty neckline trim will just turn the shoulder and form quite a delightful finish.

And as for the trouser legs, they are shaped so as to affect a skirt, when not in motion.

Pale blue crepe satin is dainty for lounging. Style No. 911 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28 and 40 inches bust. Size 16 requires 3 1/2 yards of 39-inch material with 3/4 yard of 35-inch contrasting. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Measure "Creep" Of Metal.

The "creep" of metal, the change in size and shape which takes place in this supposedly rigid material, is being measured by University of Michigan engineers, using instruments whose readings are accurate to a millionth of an inch.

SUNDAY SCHOOL LESSON

JUNE 19

JACOB THE AGED FATHER

Golden Text: "Honor thy father and thy mother."—Exodus 20:12.
Lesson: Genesis 46:1-7, 28-30; 47:1-7.
Devotional Reading: Luke 2:41-52.

Explanations and Comments

Jacob and His Family Journey To Goshen. 46:1-27.—The moving scene in our last week's lesson closed with the astounding news that Joseph and his brothers were united in peace and love, and Joseph planned with them for their speedy settlement in Egypt. Laden with presents—raiment and silver and all the good things of Egypt—the eleven brothers returned to Jacob. "Joseph is yet alive, and is ruler over all the land of Egypt," was the astounding news they brought to their father, who had so long mourned for Joseph as dead. No wonder he could not believe them at first. When he saw the wagons which Joseph had sent to transport his household he cried: "Is enough, Joseph my son is alive! I will go and see him before I die."

At last all were ready for the journey to Egypt. Jacob and his sons and their households, their cattle and their goods. At Beersheba, on the border of the desert, a feast was held between them and Joseph, the caravan halted and offered sacrifice. Everything concluded Jacob of his life lay there. In a vision that night Jacob received God's assurance that the journey to Egypt was for the best, and the promise that his descendants should become a great nation was repeated. The prospect of any greatness still seemed remote at this time. These wandering clans needed just such a place as Goshen in which to increase in numbers undisturbed by hostile neighbors; a place, too, where they could learn from the Egyptians something of the arts of life. There, too, was God's plan for them to find in Egypt an asylum where they could live a settled life. The bringing of Jacob and his sons into Egypt brought about that consummation.

The Meeting Of Jacob and Joseph, Genesis 46:28-34.—On the confines of Egypt they were met by Joseph. Like a king Joseph had sent for his father, and like a king he came to meet him in his imperial chariot drawn by Egyptian horses, but like a son he fell on his father's neck and wept.

"It may be a grand thing to sit on a high stool and wait till the old man comes upstairs. But it is an infinitely grander thing, a 'lordlier chivalry', to come off the stool and go away to meet him a mile or two on the road. Your home will be a better home—I do not care how poor the cot—if you have little sentiment in you, a little tenderness and nice feeling. These are things that sweeten life."—Joseph Parker.

Britain and Europe

Entangling Alliances Have Caused Nothing But Trouble In The Past

Great Britain's troubles lie in and proceed from Europe which has drained her through the centuries of how many millions of lives and what uncountable wealth. The British people mean to be free of this incubus that has made her a victim of action and to conduct themselves with friendship towards all nations, and to engage in entangling alliances and agreements with none. And they mean to take their own measure of the liabilities and to provide against them as they think fit. The first step to the recovery of our political freedom must be to make an end of this farce of conference after conference at Geneva and Lausanne—futile political tea parties that end in nothing but strife, distract our statesmen from the Empire, and are proving the dearest investment we ever made.—London Express.

To Make Navigation Safe

Danger Spots On Bay Route To Be Marked

In preparation for the 1932 season of navigation through Hudson Straits to the port of Churchill, the Canadian Government steamer "N. B. McLean" will spend the summer in those waters.

New lights will be installed by the "N. B. McLean" crew at Button Island, Resolution Island, Whales Island (east end), Nottingham Island, and Cape Jervis. "Well, was yer III First Lady: 'Been in the 'ospital, eh? was yer surgical or medical?" Second Lady: "Watcher mean?" Third Lady: "Well, was yer III when yer went in and they made yer well, or was yer well when yer went in and they made yer III?"

Queen Victoria's Letters Published In London

Name Of Former German Kaiser Occupies Prominent Place

The final volume of Queen Victoria's letters, covering the last five years of her life, has been published in London, England, disclosing that she once wrote "It wouldn't do" to give former Kaiser Wilhelm of Germany "a good mub."

The letters revealed that the last years of the octogenarian sovereign were marked among other things, by less caustic criticism of national and international events.

The name of the former kaiser occupies a prominent place in the letters, in which the late queen is revealed as an advocate of forbearance when his doings aroused hostility.

This was particularly noticeable at the time of the Boer War when the kaiser sent a telegram to President Kruger of the Transvaal in South Africa, which excited indignation on the part of the British nation. Queen Victoria shared in the indignation, but kept her restraint.

"It wouldn't do," she wrote, "to give him a good mub. Sharp, cutting answers and remarks only irritate and do harm, and in sovereigns and princes should most carefully be guarded against."

"William's faults come from impetuosity, as well as conceit, and calmness and firmness are the most powerful weapons in such cases."

The latest letters furnish evidence of a weariness and longing for rest, but a sense of duty prevailed over that weariness, and up to within a few days of her death she signed documents and attended to business.

New Type Of Cement

Alkali In Western Soils Will Not Destroy It

A short address by Dr. T. Thorvaldson, chemical professor, University of Saskatchewan, marked the closing session of the fifteenth annual convention of the Canadian Chemical Association which was held in Hamilton, Ontario. A distinct Canadian achievement—the invention of a new type of cement which would resist the destruction wrought by the alkali present in western soils, was discussed by Dr. Thorvaldson. The new invention is expected to save millions of dollars a year, the western professor said, to builders, roadmakers and waterworks systems.

Where It Belonged

The visiting director of education was complaining that the school was not properly cleaned. Rubbing his finger on a big globe, representing the world, he said: "Look at this. It's covered with dust."

"But, after all," protested the school-keeper, "with your 'ouch' touched is the Sahara Desert!"

COLIC

"Really, I think BABY'S OWN TABLETS are wonderful," writes Mrs. Anna P. McDonald, Northfield, Ont. "My baby has no more colic pains."

Don't let your baby suffer—give BABY'S OWN TABLETS. For colds, fever, upset stomach, constipation. Absolutely harmless. 25c—12¢

Dr. Williams' **BABY'S OWN TABLETS**

SHOULD AVOID THE DUPLICATION OF TAXATION

Ottawa, Ont.—Recommending that the Dominion, provinces and municipalities should get together in order to reach an understanding respecting fields of taxation, and thus avoid duplication, the Canadian Manufacturers' Association, passed, resolutions dealing with taxation and also unemployment.

The resolution dealing with taxation called upon the association to co-operate by asking members and employees, as well as the public throughout Canada, to refrain from asking for public expenditures except those immediately necessary.

It urged members to assist their provincial and municipal governments in curtailing expenditures, thereby lessening the burden of taxpayers. This would release large sums for use in agriculture and other basic industries.

The resolution was moved by F. C. Brown, Vancouver.

Mr. Brown also moved a resolution on unemployment, urging co-operation in reducing unemployment. It favored land settlement and supported controlled direct relief for those who cannot get work.

The election of officers at the concluding session of the association resulted as follows: President, W. C. Coulter, Toronto; first vice-president, George Henderson, Montreal; and L. A. Lint, Toronto, second vice-president. T. F. Monypenny, Toronto, is treasurer.

The executive committee includes: Major E. G. Rogers, J. W. Ackland, H. B. Lyon, W. G. Fraser, W. J. Bulman, Winnipeg; J. D. Rosenberry, The Pas, Man.; George Leach, Regina; Howard Jones, Saskatoon; T. George Wood, Raymond, Alberta; C. A. Graham, Edmonton; H. Hutchings, Calgary; W. G. Armstrong, Medicine Hat, Alberta; R. Bell-Ing, J. B. Thompson, J. H. Rolph, T. S. Dickson, H. MacLaren, G. E. Herlihy, J. A. McFarlane, Vancouver; J. H. McDonald, New Westminster.

Chairmen of standing committees include: Tariff, J. O. Thorn, Toronto; transportation, W. S. Campbell, Toronto; commercial intelligence, W. N. Drynan, Hamilton, and publishing, A. Ross Robertson, Toronto.

Death Of Joynson-Hicks

First Lord Brentford Dies At Age Of 66 Years

London, Eng.—Sir William Joynson-Hicks, first Lord Brentford, died at the age of 66 years. Congestion of the lungs complicated by heart weakness, which developed from a severe chill he sustained during a visit to the West Indies, in 1914, brought about the end to a noted political career. Lord Brentford was also one of the leading laymen in the Church of England and took a prominent part in the parliamentary battle over the revised book of common prayer.

Centenary Of Great Reform Bill Celebrated

Viscount Halifax Who Attended Personally Knew The Reformer

Newcastle, England.—Celebrations opened here June 7, to commemorate the centenary of the great reform bill, attended by Viscount Halifax and his son, Lord Irwin, former viceroy of India. Viscount Halifax, now 83 years of age, is probably the only living person who personally knew the reformer, the second Earl Grey, Prime Minister, who secured passage of the bill, and whose family is still actively associated with this area.

May Attend Conference

Victoria, B.C.—While no official statement has been made, it is probable that Premier S. F. Tolmie will attend the conference of the four western provinces at Regina June 20, as the representative of British Columbia. The government has already accepted the invitation of Premier J. T. M. Anderson, of Saskatchewan, to attend the meeting, which is to discuss the viewpoint of the west on empire trade.

W. N. U. 1946

Quebec Forest Fires

Fears Expressed That Prospectors May Be Trapped In Burning Bush

Amos, Que.—Far in Quebec's hinterland, forest fires are blazing across a wide area. Fears that some prospectors may be trapped in a country where there is little water to offer them safety are prevalent. Four buildings fell in flames as the fire spread into the little settlement of Taschereau. And fugitives from the district are telling a tragic story. The fire started several days ago near the Dome and Hollinger mines after settlers had been burning slash. Fanned by a 40-mile wind, the blaze had assumed huge proportions in a few minutes. It spread over miles of brush.

Scorched heads and burned shirts were displayed as the settlers rushed down water-courses and dropped into creeks to avoid the flames. The Abeska Lake and Bell River provided sanctuary for them after a hurried scramble through slash and muskeg.

Miles inland, far from safety, many prospectors were working. There are few lakes there. Whether they managed to outdistance the flames is problematical. No search can be conducted until the fire moderates.

Epoch In History

Imperial Conference To Mark Period Of Great Moment To Empire

Ottawa, Ont.—While the coming Imperial Conference may not produce a miracle, it will constitute an epoch in history. The Canadian Manufacturers' Association is doing everything in its power to contribute to the success of the conference.

Thus W. C. Coulter, president of the Association, indicated the attitude of his organization to the coming meeting of empire statesmen in Ottawa next month.

"It is sometimes said that there will be a great diversity of interests at the conference," declared Mr. Coulter. "That is quite true, and it is always the case when great issues are at stake; but compromise and conciliation are familiar British traits of character, and solutions can be found for most problems."

The president's reference to the conference was made in the course of an address to the association at the final dinner closing the 61st annual convention here.

Gold Receipts Heavy

Value Of Shipments To Mint In May Over Five Millions

Ottawa, Ont.—Gold receipts at the Royal Canadian Mint during May were in excess of \$5,000,000 for the third time in history, the Dominion Bureau of Statistics reports.

The gold content of the shipments from Ontario was 242,428 ounces, the value of this quantity at \$20.67 per ounce, the fixed price of gold, being \$5,011,425.

Relief Taker Well Fixed

Toronto, Ont.—While J. J. McQuade and his wife were obtaining food and coal from relief officials here, McQuade had a bank account of \$2,000, a mortgage on a local house and was able to purchase a farm at Malto, it was alleged by police who arrested the McQuades on their farm. They face charges of obtaining food by false pretences.

Northern Air Mail

Prince Albert.—With 40,000 letters aboard the new regular monthly air mail service between here and northern Saskatchewan points was inaugurated recently. Two planes were required to carry mail from Emma Lake, the air base here, to Lac La Ronge, and Montreal Lake, points of call. Most of it was prepared by stamp collectors.

Saved From Hanging

Kamloops, B.C.—Saved from hanging when the British Columbia court of appeal granted him a new trial on appeal following his conviction of murdering two companions in northern British Columbia, in June, 1930, Karl Fredericks, 32-year-old trapper and prospector, was acquitted by an assize court jury here at his third trial.

The fire department of Leyton, England, recently had to fight a blaze at the waterworks.

WOMAN DELEGATE RETRURNS

Miss Winifred Kydd, Canada's woman delegate to the Armament Conference at Geneva, has returned to Canada with the self-imposed task of informing the women of the Dominion of the results of the Conference and its prospects toward a final conclusion.

James Bay Railway

Official Opening To Take Place On July 15th

Toronto, Ont.—Official opening of the railway line from Cochrane to Moose on James' Bay, will take place July 15. It was definitely announced, following a conference between Premier George S. Henry and George W. Lee, chairman of the Temiskaming and Northern Ontario Railway. Premier Henry is to drive the last spike on the line amid an elaborate ceremony.

Premier R. B. Bennett and Chief Justice F. R. Latchford, who drove the first spike in the Temiskaming and Northern Ontario line in 1902, are to be invited to attend.

Ruling Favors Indians

Alberta Game Act Allows Them Certain Privileges

Calgary, Alberta.—Indians have an unrestricted right to hunt for food on unoccupied lands regardless of the Alberta Game Act, the Alberta Court of Appeals ruled.

Mr. Justice McGillivray, who handed down the court's decision, said this ruling in no way implied that the provincial game act was ultra vires, but merely that it did not apply to Indians hunting for food on unoccupied government or other lands.

To Discuss Wheat Bonus

Regina, Sask.—Discussion of asking for an extension of the five-cent per bushel bonus on wheat for export, paid by the Federal Government this year, will come up at the inter-provincial conference of the western provinces in Regina on June 20. The primary purpose of the conference will be to draft a memorandum setting forth the west's interest in the coming Imperial Conference.

IT ISN'T WISE TO ARGUE WITH A CRICKET BALL

Leutenant Waaz Ali, member of the All India Cricket Team, at present touring the British Isles, is shown being assisted off the field after he got hit on the head by a rising ball in the match at Lord's Cricket Ground, London, England. The injured player was taken to a nursing home, where he stayed for four days.

New Stamp Issue

Postage Stamps To Commemorate Imperial Conference

Ottawa, Ont.—Commemorative postage stamps will be issued in connection with the Imperial Conference. Announcement to this effect was made from the office of Prime Minister R. B. Bennett.

The statement reads: "Authority has been given for the issue of three commemorative postage stamps in connection with the Imperial Conference to be held in Ottawa next month.

"These stamps will be in the denominations of three, five and 13 cents.

"The three-cent stamp will bear a portrait of the king; the five-cent stamp of the Prince of Wales; and the 13-cent will be a double-sized pictorial stamp.

"These stamps are now in course of preparation, and will be issued on a date to be set after manufacture has been completed.

"There will also be an issue of over-printed mail stamps for the conference, these stamps being the current five-cent issue of air mail stamps, over-printed six cents, together with other printed stamps relating to the Imperial Conference.

"The denominations in which these stamps will be issued will ensure their use on mail matter going to all parts of the Empire, as well as to many other countries."

Memorial To Queen Alexandra Unveiled

King George Officiates At Ceremony Outside Marlborough House

London, England.—In the presence of the Queen, the Prince of Wales and most other members of the royal family, the King unveiled the memorial to Queen Alexandra, erected by public subscription outside Marlborough House, where Alexandra as Princess of Wales spent her married life prior to the accession of Edward VII, and where she returned after his death.

The ceremony coincided with the annual Alexandra rose day instituted under the late queen's auspices 21 years ago. She died in 1925.

New Governing System

Something Is Needed To Take The Place Of Party Politics

Winnipeg, Man.—Government partisanship breaks down in the face of economic difficulties and some new system must be devised, J. W. Dafoe, editor-in-chief of the Winnipeg Free Press, told delegates to the third Canadian conference on social work here.

A new conception of the state in relation to the individual was taking possession of the mind of the people, Mr. Dafoe said. It was not generally appreciated how revolutionary this conception was, nor were its ultimate consequences known.

SEE PLOT TO WRECK OTTAWA CONFERENCE

London, England.—The Daily Express says there is a "world plot against the Ottawa conference."

The newspaper, chief organ of Lord Beaverbrook, Canadian-born peer and Empire free-trade crusader, declared evidence was accumulating on all sides that there was a definite world plot to wreck the conference, to which all nations of the British Commonwealth look to help solve their joint economic problems.

Foreign nations, the Express said, are using every means of direct and indirect propaganda to sow seeds of discord between the Mother Country and the Dominions.

The Express quoted an article in a Canadian magazine by Lieut.-Col. J. B. McLean, about alleged attempts to create discord between Canada and Great Britain. It said while the Dominions were being told Great Britain will go to the conference ready to give nothing and as everything an attempt is being made to create a breach between the Dominions themselves on the suggestion each ought to profit at the expense of the others.

No United Ireland

North Would Never Be A Party To Separation From Britain

London, England.—Reports in London that present negotiations between the Free State and Britain would, by attempts to re-open the question of union between the Free State and Northern Ireland, met with a prompt rebuttal from Viscount Craigavon, Premier of Northern Ireland.

Lord Craigavon said union was quite out of the question. "A long time ago," he declared, "we in Ulster made up our minds that we would on no change to make. I would never be a party to separation from Great Britain or severance of the Imperial connection. . . . The present British Government and I see eye to eye."

Opinion here is that the President de Valera proposes, if he has not indeed already done so, reference of the whole dispute to either an Imperial or international tribunal. His bill for abolition of the oath, regarded by the British Government as the root of the present difference, is deadlocked in the Irish senate, shorn of most of its teeth by an opposition majority.

Favor Empire Trade

B.C. Industries Would Give United Support To Policy

Victoria, B.C.—Co-operation of Empire trade for the benefit of British countries, and development of an Empire currency as a medium through which this trade could be carried on, would have the united support of British Columbia industries if considered at the Imperial Economic Conference opening next month in Ottawa, according to information received by the British Columbia Government.

Brutal Murder

Lothbriar, Que.—Aroused over the most brutal murder here in years, the citizenry of Lothbriar are aiding provincial police in seeking two men who caused the death of Simon Bernard, well known and popular notary. He had been beaten over the head when he resisted efforts of the intruders to make him aid them in robbing a branch of La Banque Provinciale.

Object To New System

Shanghai, China.—Chinese telephone workers employed by the Shanghai Telephone Company, which serves in international settlement and the French concession, went out on strike in opposition to the installation of an automatic system which resulted in the dismissal of hundreds of operators.

Health Plan Rejected

Saskatoon, Sask.—Intended for submission to the convention of the Saskatchewan Union of Urban Municipalities, a resolution suggested by Dr. Arthur Wilson, health officer, proposing immunization against communicable disease of all persons applying for relief was turned down by the city council by an unanimous vote.

The U.F.A Sunday

U.F.A Sunday will be observed this year on Sunday next, June 19, and many Locals are making preparations for special meetings either in connection with regular services in churches, or in other ways.

Keeping 'Em Warm.

A school m'am caught the janitor in a falsehood, and asked him where he thought he'd go in the next world if he told such stories. The Janitor replied that no matter where he went, he guessed he'd be making fires for school teachers.

She's a bootlegger.

During a recent raid in an American city by prohibition enforcement officers, a hen was found sitting on a case of whisky.

Schedule of Mails.

To the East—Every day except Sunday; train No. 2, at 6.18.
From the East—Every day except Mon. train No. 1, at 24.16.
To West—Sun., Tues. & Friday train No. 1, at 24.16.
From West—Mon., Wed. & Friday train No. 2, at 6.18.
Reg. for the East, Mon. Wed. and Friday.
Reg. for the West, Sun., Tues. & Thurs.
Mail should be posted before 10 p.m. for dispatch to both Trains No. 1 & No. 2.

Bus Time Table.

Stops at Royal Cafe.
To Edmonton, 9.40
To Evansburg, 17.45

Knockers.

There are knockers everywhere. It is easy to be one: it requires no brains: any fool, dull, ignorant, uncivilised, uneducated person can open his mouth and bray.

A wise person is he who knows how to keep his mouth shut: a fish gets caught because he opens his mouth.

See Mecklenburg about your glasses: in spite of the knockers, he gets the business, for his patrons know he is adroit, conscientious, fair. At Royal Hotel, Mon. July 18.

GLYCERIN MIX REMOVES CAUSE OF STOMACH GAS

Simple glycerin, buckthorn bark, saline, etc., as mixed in Adlerika, acts on BOTH upper and lower bowels, removing poisons you never thought were there and which caused gas and other stomach trouble. Just ONE spoonful relieves GAS, sour stomach, sick headache and constipation. Don't take medicine which cleans only PART of bowels but let Adlerika give you a REAL cleaning and see how good you feel! It will surprise you! J. F. CLARKE, Drugist.

Pasture for any number of stock: well fenced, lots of water. Apply Henry Giebelhaus. 12

Wanted, Legs of Pork. Royal Cafe.

The places of business in Stony Plain will close at 1 p.m. on Wednesdays.

AUCTION SALE BILLS

WE'LL GOT UP AND PRINTED AND ADVERTISING, TOO, ARE ESSENTIAL IF YOU WISH YOUR SALE TO BE A SUCCESS. BRING YOUR LIST TO THE STONY PLAIN SUN

Stony Plain and District

Mr Val Mohr motored up from Mundare on Sunday.

The prize winners at the Bridge Club party which met Sat. Evg. at the home of Mr. and Mrs. Donaldson, were: Mr and Mrs A J Anderson and Mr and Mrs L M Larson.

The delegates from this part of Canada who are attending the Lutheran Conference at Milwaukee this week are: Rev C Janzen, Nelson, B. C.; Henry Goetz, Stony Plain; Director A H Schwerman, Prof. Herreillers, Rev C Thies, Edmonton.

Mr Alfred Enders, a student of Concordia College, returned to his home here last week, having passed his grade 11 exams.

Mr and Mrs Theis and family, of Los Angeles, are visitors this week Mr Theis the Senior.

Mr Jas Walker, lookkeeper at the Service Garage, is at present on vacation.

Messrs A E Michael and Sam Zucht started yesterday on a motor trip to Jasper. They didn't bring the trailer this time, but have reserved space in a refrigerator car for their fish.

A Clinic for babies will be held at the town hall today (Thursday) by the Nursing Branch of the Dept. of Public Health.

Members of the "Civil Service" troupe report having got a good reception at Ohnoway, when they presented their play there, last week.

The annual Missionfest at St John Lutheran Church at Golden Spike will be held on Sunday July 8. Rev P Hanne-man, pastor.

Muir Lake Community will hold a picnic and sports on their grounds on Dominion Day July First, with a dance in the Hall in the evening: good music.

Two Radio inspectors in R.C.M.P. uniforms gave the local receiving sets the once over on Friday, afternoon and Saturday.

A REMINDER TO ALL—All Wednesday afternoon through the Summer is the Storekeepers' holiday; they shut up shop at 1 p.m.

Brightbank News

The basketball game here on Sunday Aft. between the Lucknow Girls and the Stony Plain H S Girls proved a very interesting game all thru, with lots of thrills and a very close finish. The visitors brought their own referee, Hy Trapp, who refereed in a very impartial manner. Score—Lucknow 18, Stony 19.

Arrangements are under way by members of Lucknow Athletic club for the holding of their annual picnic. A very good committee, consisting of Messrs Ed Zahn, H Mitchell and G Miller, now has the matter in hand, and a report from them is expected at the next meeting.

Division 2's one way rough roads are a standing joke, except to motorists who try to navigate them.

Railway Time Table

Going West—Every midnight at 24.16.
Going East—Every morning at 6.18.

News of Baseball.

At the League ball game at Duffield on Sunday Duffield won by 24 to 5 runs over Stony Plain. Stony battery—Lory and Sinner.

League game, June 8th—Stony Plain 14; Grovers 2. Tonight, on the local diamond, the two local teams in the Big League come together.

—Midget League—
June 8—Cubs 13, Pirates 5
June 9—Giants 11 and Pirates 4

Basketball

June 8—Rosenthal Girls 22 and Stony Girls 6. Referee, McLean.

June 8—S. P. Ravens 16, Blueberry 11. Miss E Fischer was in hard luck; she scored for her opponents once and also got a black eye.

June 11: Stony Plain Girls played King Edward School Girls in Edmonton. Stony Girls won by 14 to 10. Alvin Willie refereed. No date has been set for a return game. Stony's line-up: M Pailer, V Peters, E Michael, R Willie, E Zucht, E Fuhr, D Dodge, B Reiser.

June 13, at Rosenthal—3 C's 18, Rosenthal 12. Referee Ella Kulak.

One Use for Moonshine.

The Times, Las Animas, Colo.; Geo. Pointon, a local farmer with a reputation for veracity and kindness to children, tells how to clear a farm of grasshopper—the dread invaders which leave no green thing behind them. Here's the recipe, in Pointon's own words:

"Take poisoned bran mash, use it for a couple of days, and when it fails fill some galvanised tins with common or garden variety moonshine and spread them around. I did it, and here's what happened:

"First the hoppers started jumping backward and turning somersaults. I figured that was better than having them eating my crops, but I watched a while longer.

"Then they turned ugly, started tearing each other limb from limb. Finally they started eating each other. After a while there was only one left.

"I slammed the door just in time, as that one with a horrible growl, chased me into the house. "Peeping out of the window, I watched it wander off into the hills, looking for 'mountain lions.'"

Specially Arranged Tours.

Something new in trans-Canada holidays, in which the railway, auto and steamship will be combined in pleasing variety, is offered for the coming summer thru two special tours now being arranged by Canadian National Rys, for July and August. Those who take part in these tours will traverse over 8000 miles of Canadian territory, 6000 miles by train, 1500 miles by steam or on the Great Lakes and Pacific coast, and over 500 miles by motor car in Rockies and the principal cities visited.

All the larger cities on the prairies will be included in the itinerary together with a triangle trip by steamer between Vancouver, Victoria and Seattle, with two days on the inland seas between Vancouver and Prince Rupert.

USED CARS.

1930 Chevrolet Coupe, in very good shape \$500

1927 Dodge Sedan, all overhauled; new tires, new battery \$300

1927 Chrysler Coach; good as new \$275

1931 Chevrolet Sedan—only slightly used \$975

"LOCK YOUR DOOR ON BIRTHDAYS!"

SAYS
HUGH TREVOR
Famous Screen Star

"The woman who wants to win and hold adoration should keep youth," Hugh Trevor says.

"Stage and screen stars hold the admiration they have won year after year. Birthdays are dearer to all. And nowadays other women are learning their complexion secret."

"To keep youthful charm, guard complexion beauty. A skin aglow with the fascinating freshness of youth is always alluring," the lovely actress tells us.

"Use Lux Toilet Soap regularly as we do."

In Hollywood—on R.K.O. Star Broadway—in Europe, they remain young, charming and magnetic, with Lux Toilet Soap. Six of the 94 actresses in Hollywood alone are devoted to it.

That is why Lux Toilet Soap is the official soap in the dressing rooms of all the great film studios! Your skin will respond to it, too! The carers of dollar-a-cake French soap just 10c, a cake!

Alluring Star

THE HOUSE OF DREAMS-COME-TRUE

— BY
MARGARET FEDLER
— Author Of
"The Splendid Folly," "The Herald Of Peace,"
Hodder & Stoughton, Ltd., London.

CHAPTER XXIII—Continued

"No," he said slowly. "No. The boiling over part is done with—finished. . . . I'm going to take her away from him."

He spoke with a curious precision. It frightened Jean far more than any impetuous outburst of anger could have done. She made no answer for a moment, but her mind worked rapidly. She did not doubt the absolute sincerity of his intention. This was no mere reckless boast of an angry lover, but the sane, considered aim and object of a man who has come, by way of some long and arduous of thwarting, to a set determination.

"Do you mean that, Nick?" she asked at last, to gain time.

"Do I mean it?" he laughed. Then his hands gripped the arms of the chair and he leaned forward. I saw her—last evening after dinner. . . . Her shoulder was black."

A sharp cry broke from Jean's lips.

"Not—not—he hadn't!"

Nick nodded.

"He had struck her. There was one of the usual scenes when they got back from the Moor—and he struck her. . . . It's the first time he has ever actually laid hands on her. It's going to be the last!"—grimly.

Jean was silent. Her whole soul was in revolt against the half-mad, drug-ridden creature who was making of Claire's life a daily martyrdom; the instinct to protect her, to succour her in some way, asserting itself with almost passionate force. And yet—She knew that Nick's way was not the right way.

Try Lydia E. Finkham's Vegetable Compound

She's Up in the Air Again

Those who love . . . are sure to suffer when monthly pains shatter her nerves. Lydia E. Finkham's Vegetable Compound would ease this awful agony.

W. N. U. 1946

"Yes, it must be the last time," she agreed. "But—but, Nick, your plan won't do, you know."

Nick stifled.

"Think not?" he said curtly. "Can you suggest a better?" Then, as Jean remonstrated miserably silent: "Nor can I. And one thing I swear—I won't leave the woman I love in the hands of a man who is practically a maniac, to be tortured day after day, mentally and physically, just whenever he feels like it."

It struck Jean as curious that Nick had been able, more or less, to keep himself in hand whilst Sir Adrian inflicted upon Claire whatever of mental and spiritual torture seemed good in his distorted vision. It was the fact that he had hurt her physically, laid his hand upon her in actual violence, which had scattered Nick's self-control to the four winds of heaven. To Jean herself, it seemed conceivable that the mental anguish of Claire's married life had probably far outstripped any mere bodily pain. Half tentatively she gave expression to her thoughts.

"God God!" he exclaimed. "If you were a man, you'd understand! I see when I think of that damned brute striking the woman I love. It—it was sacrilege!"

"And won't it be—another kind of sacrilege—if you take her away with you, Nick?" asked Jean very quietly.

He flushed duly.

"He'll divorce her, and then we shall marry," he answered.

"Even so?—steadily—"it would be doing evil that good may come."

"Then we'll do it—sincerely. It's easy enough for you to sit there, moralizing, perfectly placed and comfortable. Claire and I have borne all we can. It has been bad enough to care as we care for each other, and to live apart. But when it means that Claire is to suffer unexampled misery and humiliation while I stand by and look on—why, it's beyond human endurance. You're not tempted. You've no conception what you're talking about."

Jean sat very still and silent while Nick stormed out the bitterness of soul, recognizing the truth of every word he uttered—even the gibes which, in the heedlessness of his own pain, he flung at herself.

Presently she got up and moved rather slowly across to his side. "Nick," she said, and her eyes, looking into his, were very bright and clear and steady. Somehow for Nick they held the semblance of two flames, torches of pure light, burning unflinchingly in the darkness. "Nick, every word you say is true. I'm not tempted as you and Claire have been, and so it seems sheer cheek my interfering. But I'm only asking you to do what I pray I'd be strong enough to do myself in like circumstances. . . . I truly believe your true happiness can ever come of running away from duty. And if ever I'm up against such a thing—a choice like this—I hope to God I'd be able to hang on . . . to run straight, even if it half killed me to do it."

The quick, impassioned utterance ceased, and half shrinking Jean realized that she had spoken out of the very depths of her soul, crystallizing in so many words the utmost ideal and credo of her being. In some strange, indefinable fashion it was borne in on her that she had reached an epoch of her life. It was as when a musician, arrived at the end of a musical period, strikes a chord which holds the keynote of the ensuing passage.

She faltered and looked at Nick beseechingly, suddenly self-conscious, as we most of us are when we find we have laid bare a bit of our inmost soul to the possibly mocking eyes of a fellow human being.

But Nick's eyes were not in the least mocking.

Instead of that, some of the hardness seemed to have gone out of them, and his voice was very gentle, as taking Jean's two hands in his, he answered:

"I believe you would run straight, little Jean—even if it meant tearing your heart out of your body to do it. But, you know, you're always on the side of the angels—institutively. I'm only a man—just an average earthy man—smiling ruefully—and my legs all tumble down and get on the ground in a heap when I think of what my girl's enduring as Lettner's wife. I believe I might stick my part of the business—but I can't stick it for her."

"And yet," urged Jean, "if you go away together, Nick, it's she who'll

pay, you know. The woman always does. Supposing—supposing Sir Adrian doesn't divorce her—and refuses to? It would be just like him to punish her that way. What about Claire—then?"

"He would divorce her," protested Nick harshly.

Jean shook her head.

"I don't think so. Honestly, I believe he would get undiluted satisfaction out of the fact that, as long as he lived, he could stand between Claire and everything that a normal woman wants—home, and a sheltered life, and the knowledge that no one can 'say things' about her. Oh, Nick, Nick! Between you—you and Sir Adrian—you'd make an outcast of Claire, make her life a worse hell with you than it is without you." She paused, then went on more quietly: "Have you said anything to her about this—told her what you want her to do?"

"No, not yet—not definitely."

Jean breathed a quick sigh of relief.

"Then don't! Promise me you won't, Nick?"

"She might refuse, after all," he suggested, evading a direct answer.

"Refuse! You know her better than that. If you wanted Claire to make a burnt-offering of herself for your benefit tomorrow, you know she'd do it! And—and—laughing a little hysterically—"pretend, too, that she enjoyed the process of being grilled! No, Nick, it's up to you—to just go on helping to make her life bearable, as you have done for the last two years."

"It's asking too much of me, Jean."

Nick spoke a little thickly. He was up against one of man's most primitive instincts—the instinct to protect and comfort and cherish the woman he loved.

"I know. It's asking everything of you."

Jean waited. She felt that she had gained a certain amount of ground—that Nick's resolution had weakened a little in response to her pleading, but she feared to give him too far. She fancied she could hear steps crossing the hall below. If someone should come upstairs and disturb them now, while things were still trembling in the balance—

"See, Nick," she began to speak again hurriedly. "You believe I'm your pal—you and Claire's?"

"I know it," he replied quietly.

"And—and you do care a bit about me?"—smiling a little.

"You're the third woman in my world, Jean. After Claire and my mother."

(To Be Continued.)

Map Mineral Acres

Programme Of Mapping and Exploring To Be Carried On This Year

An extensive programme for mapping and exploration of mine areas in Canada is being carried out this summer by the Department of Mines, Ottawa. Some of the most promising mineral areas in Yukon territory, the North West Territories, British Columbia, northern Saskatchewan and Manitoba and in the Rocky mountain belt of Quebec, were to be explored and mapped. Intensive investigation in several of the older areas will also be carried out.

A Queer Tragedy

One of the queer tragedies of life was enacted recently in New York when the engineer who designed and built the Cunard pier was the only man to meet death there when it was destroyed by fire a few weeks ago.

One of the commonest complaints of infants is worms, and the most effective application for them is Mother's Graves' Worm Exterminator.

An international exposition of decorative and modern industrial arts will be held at Milan, Italy, from April to August next year.

Sluggish Liver

And Rheumatism

Both Corrected By
Famous Vegetable Pills

"I received immediate relief from Carter's Little Liver Pills," declares Mr. Arthur P. "I recommend them to sufferers from Rheumatism and Indigestion." Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acidity, Bilelessness, Headaches and Poor Complexion. 25c. & 75c. red package. Sold everywhere.

Eno Cleanliness Means Good Health

Water alone will not remove grime from your hands . . . you need soap, too. It's the same with inward cleaning . . . It takes more than a mere laxative to remove poisonous matter. That's why ENO'S "Fruit Salt" is so good for you. It helps to make and keep you healthy by thoroughly cleansing the intestinal tract. Take it daily, morning or night. But be sure it's ENO'S! CWA

Little Helps For This Week

"And there shall be no more death, neither sorrow nor crying, neither shall there be any more pain, for the former things are passed away."—Revelations xii. 4.

Can the bonds that make us here know ourselves immortal. Drop away, the foliage sear. At life's inner portal. What is holiest below. Must forever live and grow.

He who on our earthly path Bids us help each other. Who His Well-Beloved hath Made our Elder Brother. Will clasp the chain of love Closer, when we meet above.

—Lucy Larcom

God did not create spirits, and endow them with a knowledge of Himself, to allow them to forget Him after a brief space. He did not unite souls by the spiritual bonds of love to separate them again forever.

—Zschokke.

In heaven hands clasp forever, — Greek Proverb.

Vocabulary Of The Crow

Birds Belonging To Tribe Are Very Versatile

E. W. Hendy, writing in London Nineteenth Century, says: "One would expect the crow, raven, whose members are so full of brains and wickedness, to have a large vocabulary. The raven, who is perhaps the wisest and most mischievous of them all, is, indeed, very versatile in his language. I have written more fully elsewhere of some of his notes, so eloquent of his many-coloured moods; it will suffice here to say that he can proclaim anger, alarm, humour, pleasure, roguery, and even, by a kind of snarl, disdain. Rooks are most equally loquacious; they are credited with from thirty to forty different notes, and are even said to have evolved several 'words.' That they have a large and heterogeneous glossary anyone can testify who has listened to the extraordinary babel of sound which accompanies their going to roost and their nesting operations."

Persian Balm appeals instantly to the dainty woman. Stimulating the skin, making it velvety soft in texture. It creates and preserves complexions of exquisite charm. Delicately fragrant. Cool and delightful to use. Especially recommended to soothe and dispel roughness or chafing. Stimulating and invigorating. Imparts a youthful loveliness and protects and enhances the most delicately-textured skin. Persian Balm is the unrivalled toilet requisite.

Times Have Changed

World Goes Far In Sanitation During Last Twenty Years

A catalogue issued by a school for the nobility at Saint Cyr, France, 20 years ago, was discovered recently. It shows how far we have come in the matter of personal cleanliness and sanitation since that time. Pupils at this school were entitled to one suit of underwear, one pair of stockings and two handkerchiefs a month. One towel had to last a week without laundering. One foot bath monthly and three complete baths yearly, one each in May, June and July, were prescribed.

Green Bay, Wis., has appointed its mayor, John V. Diener, official taster of foods sold by the city's welfare store.

Left Large Estate

Earl Of Egmont Estate Valued At Two His Dead Thousand Pounds

The London Daily Telegraph says the Earl of Egmont, former Priddy, Alta., rancher who was fatally injured in an automobile crash near Southampton, left an estate of £285,522.

The newspaper estimated the net value of the estate, after deduction of succession and other state levies, at £211,400.

The earl, who lived with his son in the kitchen of Avon Castle, left no will, and letters of administration, until further representation shall be granted, are in the name of the Royal Bank of Scotland at Edinburgh.

The earl's direct heir is his son, Viscount Perceval, a young man of 17 who could rope and brand a calf with the best of the hands on his father's ranch at Priddy.

I haven't been so happy for years

"I've just thrown out all my dust clothes

—because I've found how to do the work better, easier and quicker. "You use Applesford Wonder Paper now. You buy it in a neat package that tucks away handily in a table drawer. Twenty-five large sheets for a quarter. When you use it, you simply crumple a sheet into a soft wad and go over whatever needs attention. "I've never seen anything like Wonder Paper. It really dries, cleans and polishes at the same time. It takes up dirt like magic, and so easily. And you can use both sides.

"What I used to loathe about dusting was the bother of keeping the dusters clean. I always used odds and ends of old shirts and the like—and it seemed to me I was eternally washing them. It worried me just to throw them into a bag or cupboard. They seemed so unsanitary.

"The beauty of Wonder Paper is that you throw it away when you're through with it. "I can promise that you'll like Wonder Paper. It gives you just what you need very much more attractive than dusting."

Special Offer

WONDER PAPER is made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box. Most grocery, hardware and department stores have Applesford Wonder Paper in stock. If yours hasn't, send us the coupon below and we'll give you a booklet entitled "Lettovers," containing one hundred recipes, as a bonus for your trouble.

Applesford Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one package of The Wonder Paper and your 100 Recipes Booklet "Lettovers."

Friday's Ball Game.

Eddie Mayer took his Redbird aggregation of ball-tossers to the Grove on Friday, and won their game by 8 runs to 4. Eddie's bunch started off good, having a score of 3-0 in the 3d. Then Grovers started a Run campaign, and made it 4 to 3 in their favor. At this juncture, Mr. Reinhold Kulak went to bat, biffed the ball over Dave Bell's garage, making a homer, and evening up the score—4 all. From then on to the finish, all the runs were made by the Stony gang.

Truck Owners Up Agin It.

This season's truck owners seem to be receiving a lot of attention from the parties who claim the power to regulate their operation. Their first bad news of the year to them was the large increase in the 1932 license fees; another shock came when the roads they travelled were closed to them, following a rainy spell; their troubles were further augmented when they learned that the City of Edmonton intended imposing a special tax on them for using City streets. As if these were not enough, along comes The Department of Public Works and says "that no truck shall travel at more than 28 m.p.h. on any Alberta road."

Bogus Four-bit Pieces.

On making a slow recovery from an epidemic of measles, the citizens of Edmonton are at present said to be suffering from fifty cent fever, bogus coins of this denomination being in circulation among the people of the Metropolis, according to the police.

Experts say the counterfeiters are hardly to be distinguished from genuine ones, and are cleverly cast in a silvery metal. The police are "bending every effort" to discover the maker, but are hampered by the fact that the spurious coins are so well made, that they have changed hands many times before being discovered.

Sow Belly and Bologna Bulls

"I wish you would ask someone who knows," writes a correspondent of Market Examiner, "why good heavy sows are worth only 75c per 100lb. Perhaps it's for the same reason that bologna bulls are worth only 1 1/2c a lb., and bologna is selling at 14c a lb. Anyway, there's always something taking the joy out of life, and it might as well be heavy sows and bologna bulls as anything else."

Calamity Jane's Price List

Between crows and creameries; middlemen and magpies; hawks and high tariffs, we are sure earning our bread by the sweat of our brow these days, writes a correspondent in Red Deer Advocate. It takes a dozen eggs to buy a postage stamp; the price of 2 hides to buy a pound of sole leather; 10 dozen eggs to buy 2 lbs. of salt codfish; takes a week's gathering of cream to buy a block of salt for the cattle, and so on.

What Other Sort?

A lady writer who conducts a gossip column in one of the Toronto papers has started in to discuss the question whether women admire more the husbands they can boss, or the other sort—Kingston Whig.

Wedding Anniversary.

Mr and Mrs Geo. Rehkopf on Sat. Evg. last celebrated the 25th anniversary of their wedding, with a number of their friends. The evening was spent in re-newing acquaintances and at cards. A delightful lunch was served after midnight, to an appreciative gathering, after which the happy couple were presented with a set of silverware and other valuable tokens of esteem. Among those present were:

Mr and Mrs Ole Mickelson
Mr and Mrs A J Shaul
Mr and Mrs G Gledhill
Mr and Mrs W M Washburn
Mr and Mrs H Oppertshausen
Mr and Mrs C Meeds
Mr and Mrs D Sutherland
Mr and Mrs W T Propp
Mr and Mrs A Propp
Mr and Mrs O Mickelson
Mr and Mrs J Sutherland
Mr and Mrs B G Powell
Mr and Mrs J Evjen
Miss Viola Rehkopf
Mr Fred Gabel

Edmonton Beach.

The bargain prices for admission to the dance Saturday night at the Pavilion got results, as the dance floor was crowded all thru the evening. Martins supplied the music. Mr Barry had a bargain sale, also, on the articles wanted, including the 2 for 6c cones.

Sunday seen another record crowd, which enjoyed itself thoroughly at this popular summer resort.

The Huttson Bay Store, at the entrance to Beach Park reports no fur catches as having been brought in yet.

The ball game Sunday Aft. was won by the Beach team; while 2 basketball teams from the City gave a nice exhibition.

Heard at the H. S. Gym.

Gottlieb—You didn't utter your own cigarette before, so why d'ya do so now?
Creepy—Well, because the Doc. told me better I start taking exercise.

SAVE YOURSELF GRIEF!

\$10.60--5.25x18

In the price of a new Good-year tire with Pathfinder tread . . . made with Superior Cord . . . fully guaranteed.
Don't be satisfied with tires of unknown make and doubtful quality. You'll save yourself a lot of grief by getting genuine Goodyears.
Take advantage of the price quoted. It's a real bargain. Other sizes priced proportionately low.

Sommerfield & Mayer,
STONY PLAIN

Here and There

Captain L. D. Douglas, R.N.R., recently named commander of the Pacific; and Queen, the Empress of Japan, largest of Canadian Pacific liners on the Pacific, recently brought his 26,000-ton ship to Pier 12, Vancouver within 44 minutes of the Pacific record.

His Excellency Rana Pharrat Chandra Bahadur, Rajah of Jubbal, was a traveler on the Empress of Japan from the East, recently. He might have been taken for any business man but for the presence of his wife, daughter of the Maharajah of Kathiawar, India, who was attired in Indian garb.

Crop conditions in western Canada are most encouraging and, given normal weather conditions, the quantity and quality of the harvest will go a long way towards restoring confidence and prosperity. Grant Hall, vice-president of the Canadian Pacific Railway, stated recently on his return from a tour of inspection of the company's property.

Final figures of butter production in Alberta for 1931 amount to 22,567,522 pounds, which is more than 500,000 pounds above the previous highest year's record for the province. Closely associated with butter production is a movement inaugurated by the Federal and Provincial Departments of Agriculture to encourage farmers to enlarge their forage crop areas.

Major "Bill" McGeehan, one of America's best known columnists, and Lionel Hitchman, veteran defence man of Boston Bruins, landed a 19 and a 30 pounder each from New Brunswick waters respectively in May. The Major got his fish with a four-ounce trout rod on the Caledonia River; Hitchman was fishing at Hart's Pool near Fredericton on the Saint John River.

John Cudahy, of Milwaukee, hunting across the Great Divide near Banff, and faced by a furious charging wounded grizzly almost within striking distance and with but one cartridge left in his rifle, coolly stood his ground and dropped the monster at his feet. Mr. Cudahy has hunted in India, Africa and Alaska, but said he had never had the thrills he experienced on this recent grizzly hunt.

Success of the bargain trips over week-ends and holidays which the Canadian Pacific has put into effect this year was further attested by the great popularity enjoyed during the recent Victoria Day holiday and in week-ends following. To take one large centre—Montreal—the city was literally invaded by the great influx of visitors from eastern Canada and the United States and other big Canadian cities report similar conditions.

Brother officers of the Canadian Pacific Railway, representatives of transportation systems in Canada and the United States, members of the Masonic Order and of Rotary and sponsoring friends from virtually all walls of life united in an impressive tribute to the late George A. Walton, general passenger agent of the railway at his funeral in Montreal recently. The remains were taken to Winnipeg where burial took place in the Elmwood Cemetery with Hon. James D. McGregor, Lieutenant-Governor of Manitoba, Mayor Ralph H. Webb of Winnipeg, and many officers of the company in attendance. His Grace Archbishop Matheson, assisted by the Rev. H. S. Reed, of St. Luke's Anglican Church, conducted the funeral service. (547)
